Voice: (571) 272-4971

Dear Lori:

During our conversation today we discussed changes to the specifications and claim on my patent application indicated above.

I requested that you help me with the changes necessary to facilitate the issuance of a patent. This fax should be considered as both a request and the authority for you to re-write and make any changes necessary to my application.

Lori, you have been a great help to me in this endeavor and I appreciate your efforts on my behalf. I do have six more in various stages of completion so I will try to get better acquainted with how the process at the patent office operates.

Thank You,

Sincerely

Billy Ray Delp
